WABCO

COMMITTED TO QUALITY, REMANUFACTURED FOR PERFECTION

WABCO Reman Solutions does not simply re-build for function, we remanufacture for perfection using the latest technologies and industry know-how gained from Original Equipment manufacturing. Every WABCO Reman Solutions product performs to the same standards as the original product and is given the same warranty as a new product, guaranteeing a quality that you can truly rely on!

ZF Friedrichshafen AG

ZF is a global technology company and supplies systems for passenger cars, commercial vehicles and industrial technology, enabling the next generation of mobility. ZF allows vehicles to see, think and act. In the four technology domains Vehicle Motion Control, Integrated Safety, Automated Driving, and Electric Mobility, ZF offers comprehensive solutions for established vehicle manufacturers and newly emerging transport and mobility service providers. ZF electrifies different kinds of vehicles. With its products, the company contributes to reducing emissions and protecting the climate.

ZF, which acquired WABCO Holdings Inc. on May 29, 2020, now has 162,000 employees worldwide with approximately

260 locations in 41 countries. In 2019, the two then independent companies achieved sales of €36.5 billion (ZF) and \$3.4 billion (WABCO).

With the integration of WABCO, the leading global supplier of braking control systems and other advanced technologies that improve the safety, efficiency and connectivity of commercial vehicles ZF will create a new level of capability to pioneer the next generation of solutions and services for original equipment manufacturers and fleets globally. WABCO, with almost 12,000 people in 40 locations worldwide, will now operate under the ZF brand as its new Commercial Vehicle Systems division.

PREMIUM AND ADVANCED REMANUFACTURED PARTS

A WABCO Reman Solutions product is restored from a re-usable core, which goes through a series of advanced industrial processes performed by dedicated industry experts at certified WABCO Reman Solutions facilities around the world. During the remanufacturing process, all parts which are subject to wear, as well as critical components, are replaced by the highest quality WABCO components.

To ensure only the best products make it to market, functional tests are performed to achieve no less than a 100% quality rating on all products. The standardized and fully documented WABCO remanufacturing process ensures that the used core is always returned to the market as a same-as-new or better condition product.

DISASSEMBLY

Remanufacturing is an important part of the product lifecycle. This process extends the product life up to 50% compared to the original cycle.

Remanufacturing solves to restore original product functionality and provides extended lifetime of the product for the end user. This is the key difference between the process of remanufacturing, recycling and reuse.

IMPORTANT NOTE

We recommend replacing every brake caliper together with the actuator.
Refraining from replacing the actuator may shorten the life of a brake caliper.

RETURN THE CORE, GET YOUR MONEY BACK!

COREXPEDIA

CorExpedia tool is easy to use and enables Authorized WABCO Distributor to create declarations for returning cores even through a mobile phone.

Ensuring cores are returned from the workshop to be remanufactured is key to enabling the availability of this ecological alternative on the market. With the introduction of CorExpedia we are reducing the effort you have to make to return these to us by automating the entire process!

The tool is easy to use and enables you to create declarations for returning cores even through your mobile phone. The application provides you with full visibility of your core bank and all return declarations, gives you access to reports and allows you to track shipments. And to make your life a little easier, the transport is organized by WABCO for you.

Discover the next level of convenience, speed and efficiency with WABCO's CorExpedia today!
